

## PRODUCT INFORMATION - INDOOR BASKETBALL

### WALL FIXED NON-FOLDING PRACTICE BASKETBALL GOALS

Wall or column mounting options with units featuring a primary size (1200 x 800) timber backboard with a 500mm projection from the wall and supplied with a regulation heavy duty hoop. Mounting plate can be custom made to suit mounting to a column. Please contact us to discuss. Ideal for cross court games and practice sessions.

BB004	Non-folding practice basketball goal	Each
BB070	Non-folding wall fixed basketball goal	Each

### WALL FIXED SIDE FOLDING BASKETBALL GOALS

Wall fixed gameplay basketball goals feature an international size (1800 x 1050) backboard in either timber or high strength glass.

All units are custom made to order and can be manufactured to fold to the left or to the right with a backboard projection up to 4 metres. Longer projections are possible with additional design requirements.

These units need to be quoted individually.

### WALL FIXED UP FOLDING BASKETBALL GOALS

Wall fixed gameplay basketball goals feature an international size (1800 x 1050) backboard in either timber or high strength glass.

All units are custom manufactured to suit the application with a backboard projection up to 4 metres and are lifted with an electric winch. Longer projections are possible with additional design requirements.

Mounting points for the basketball goal, winch and support cables require consultation with an engineer.

All up-folding basketball systems are designed and quoted individually.

### ROOF FIXED RETRACTABLE BASKETBALL GOALS

These units are attached to brackets within the roof structure allowing them to be raised or lowered by electric winch.

Roof retractable gameplay basketball goals feature an international size (1800 x 1050) backboard in either timber or high strength glass.

All units are custom designed and quoted individually. They are manufactured to suit each venue following close consultation with site engineers, to confirm the suitability of the design and loadings on the building structure.

Further details are available on request.

## OUTDOOR BASKETBALL – cont.

### REVERSIBLE BASKETBALL/NETBALL TOWERS

Fixed height towers feature a round section steel post with a bolted connection cross arm to support the backboard on its steel frame and a netball hoop on the back of the post.

Each unit is supplied with a ground socket with top flange. The main post features a corresponding flange to ease the rotation of the unit, using the turning handle on the side of the post.

A locator bolt allows the post to be secured with either basketball or netball in the playing position.

BB058	Primary reversible tower Post – 76mm Hoop height – 2600mm Backboard projection – 600mm Backboard size – 1200 x 800mm	Each
BB072	Intermediate reversible tower Post – 76mm Hoop height – 3050mm Backboard projection – 1200mm Backboard size – 1200 x 800mm	Each
BB045	Intermediate HD reversible tower Post – 89mm Hoop height – 3050mm Backboard projection – 1200mm Backboard size – 1200 x 800mm	Each
BB057	Senior reversible tower Post – 115mm Hoop height – 3050mm Backboard projection – 1200mm Backboard size – 1800 x 1050mm	Each

### HEIGHT ADJUSTABLE + REVERSIBLE INTERMEDIATE TOWER

Features a 76mm round post with a telescopic slider that supports the backboard on its frame and a netball hoop on the back of the frame.

The slider can be rotated on the post to allow for basketball or netball play and the hoop height can be set at 2600mm or 3050mm.

BB027	Intermediate height adjustable basketball tower Post – 76mm Hoop height – 2600mm / 3050mm Backboard projection – 800mm Backboard size – 1200 x 800mm	Each
GF005	Socket to suit BB027	Each

## OUTDOOR BASKETBALL – cont.

### HEIGHT ADJUSTABLE INTERMEDIATE TOWER

Features a 75mm square post with a telescopic slider that supports the backboard on its frame. This allows the hoop height to be set at 2600mm or 3050mm.

BB026	Intermediate height adjustable basketball tower Post – 75 SQ Hoop height – 2600mm / 3050mm Backboard projection – 800mm Backboard size – 1200 x 800mm	Each
GF005	Socket to suit BB026	Each

### FREESTANDING BASKETBALL GOALS

With a heavy-duty base frame supporting the main post and backboard. The post is braced back to the base and the base is counter weighted with concrete to maximise stability.

Wheels on the base allow the unit to be moved on and off the court allowing space for other codes.

BB030	Freestanding fixed height basketball tower Post – 75 SQ Hoop height – 3050mm Backboard projection – 1200mm Backboard size – 1200 x 800mm	Each
BB031	Freestanding adjustable height basketball tower Post – 75 SQ Hoop height – 2600mm / 3050mm Backboard projection – 800mm Backboard size – 1200 x 800mm	Each

### OUTDOOR SIDE FOLDING BASKETBALL GOALS

Gameplay basketball goals for outdoor play which can be folded sideways when not in use, allowing space for other codes.

Units are fitted with an international size (1800 x 1050) timber backboard and heavy duty solid steel hoop.

All units are custom manufactured to suit site specific requirements.

Further details are available on request.
