

The half step stand is a strong modular stand featuring three 2000mm x 340mm shelves in a classic waterfall display.

This stand is supplied with a signage header and is fitted with quality locking castors, allowing easy manoeuvrability, and makes an ideal merchandiser where space maybe limited or where the display needs to be repositioned within the store.

The mesh on each shelf measures 50mm x 50mm and all of the components are hot dipped galvanised for maximum durability and corrosion protection.

We can custom manufacture this stand in a size to suit your facility and it can be supplied without castors or without the signage header if preferred.

Please contact us to discuss your specific requirements.
