

## ROUND DISPLAY STAND

A strong and slimline design with the advantage of no front or back making the round display stand an ideal option for areas with high customer 'traffic flow'.

The stand is easy to keep merchandised and features tiered shelves in a classic waterfall formation making an impressive display, approached from any direction.

The design has recently been reworked following the feedback from our customers who wanted the overall height of this unit to be lowered, providing an easier line of sight to all areas of your garden centre.

Two standard size configurations are available, both featuring a bottom shelf nominally 150mm high with 450mm spacing between the shelves. The shelves are manufactured from 50mm x 50mm mesh and all of the components of the stand are hot dipped galvanised for maximum durability and corrosion protection.

69162          Shelf diameters          1500mm/1200mm/900mm

69164                                  1200mm/900mm/600mm

We will custom manufacture any stand to suit the requirements of your facility so please contact us for assistance.
