ROUND DISPLAY TABLES

Not to be confused with light weight alternatives, our 1200mm diameter, round display tables are very robust. Our standard design features 'expanded mesh' tops with under table supports and a top rail.

The height of the table needs to be specified when ordering so as to achieve the best result for your application. Often tables are ordered in lots of three with staggered heights of 300mm, 500mm and 700mm to create a waterfall effect when the tables are positioned together.

Tables in excess of 600mm high include additional leg bracing and all components are hot dipped galvanised to maximise durability and corrosion protection.

69160	Round display table	up to 600mm high
69161		600mm to 800mm high

If you would prefer a non-standard size for your facility, please discuss your requirements with us so that we can create a solution for you.

All sizes are nominal
