

The square step display stand has easy 'all round' access using a classic waterfall display making it a popular choice in garden centres. The stock is visible from all directions and with 340mm deep shelves the stand is easy to merchandise and to maintain the appearance of the featured display.

The overall height of this unit is 1800mm including a signage header with the base shelf measuring 1600mm square.

The mesh on each shelf measures 50mm x 50mm and all of the components are hot dipped galvanised to maximise durability and corrosion protection. Assembly is required once on site and all fixings required are supplied.

We can manufacture this stand in a size to suit your facility and it can be finished without the signage header if preferred. Please contact us to discuss your specific requirements.

All sizes are nominal
