

Root trainer tray

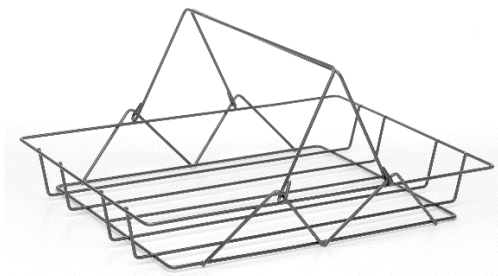

The root trainer tray is a simple galvanised wire, welded frame designed to hold tapered root trainer pouches, once planted, preventing them from falling over.

Manufactured in two sizes:

39452	Root trainer tray	Small
39450		Large

Punnet Carrier

The punnet carrier is useful in both a commercial situation and retail garden centres and has been specifically designed to hold standard punnet trays.

They are manufactured using galvanised wire for corrosion protection and durability with the option of a black powder coat finish if preferred.

The handles fold allowing multiple punnet carriers to be stacked when not in use.

39457	Punnet carrier	Galvanised
39455		Powder coated

All sizes are nominal
